ABOUT US

ALL-PRO, a Division of the Michalis Group, was first established over 25 years ago and quickly built a relationship with the mining industry by responding to its needs.

Since then, ALL-PRO have become the foremost supplier of chemical, cleaning and dispensing solutions throughout the NSW and QLD mining industries. Within our two manufacturing sites, located in Newcastle and Rockhampton, ALL-PRO produces over 300 speciality chemicals for a variety of industries ranging from cafes to clubs; automotive to marine; workshops to power plants.

As an ISO accredited and environmentally certified business, ALL-PRO is fully committed to producing innovative and unique formulations through investing heavily in research and development to meet the needs of a demanding and ever-changing industry.

Along with our comprehensive range of chemical products, ALL-PRO also prides itself on providing professional, expert representatives and supporting staff to all existing and prospective clients. Our ALL-PRO representatives are specifically trained, to guide clients through all stages of product selection through to its application and storage.

Our team also provides specialized chemical training services relative to product selection, safety and handling and optimum application methods and techniques.

Our team also offers technical support throughout the installation and monitoring of electronic metering devices. On site, online and in-house laboratory support allows us to offer clients measured results and tailored products specific to their cleaning needs.

OUR SERVICES

THE ALL-PRO DIFFERENCE

COMPREHENSIVE PRODUCT RANGE

ALL-PRO has established itself as a one stop shop for professionally formulated chemical, cleaning and dispensing solutions. ALL-PRO produces and distributes over 300 speciality chemicals to a wide range of industries throughout Australia including: mining sites, heavy industrial workshops, clubs, pubs and restaurants, transport and automotive businesses, aged care facilities, hospitals, and hotels, etc.

From general cleaners, disinfectants, and vehicle care, to metal treatments, food grade hand soaps and rim and tyre compounds, ALL-PRO have a solution for all of your chemical, cleaning and dispensing needs.

INNOVATIVE FORMULATIONS

ALL-PRO employs the services of several specialist chemists with the aim of:

- Meeting our customers varied, yet specific needs;
- Solving on-site cleaning issues experienced by clients in a variety of industries and settings;
- Developing innovative and unique formulations.

In an ever changing world, ALL-PRO seeks ground breaking technologies and eco-friendly materials to formulate products that, not only meet our customer expectations, but exceed them!

QUALITY ACCREDITATIONS

For over 25 years, ALL-PRO has committed itself to formulating and manufacturing innovative chemical, cleaning and dispensing solutions. Through regulating every phase of the design and manufacturing process, ALL-PRO guarantees high quality products that deliver consistently outstanding results. Our objective at ALL-PRO is to adopt an approach of continuous improvement within our systems to deliver products efficiently and consistently to clients. Our Quality Assurance Management Systems, in accordance with AS/ NZS9001:2008, details our management system and employees' responsibilities in regard to the implementation and achievement of quality objectives.

**MEETING & EXCEEDING
CUSTOMER EXPECTATIONS**

PRODUCT & TECHNICAL SUPPORT

The application and controlled use of chemicals is critical for performance, safety and value for money. ALL-PRO offers onsite and offsite support along with our comprehensive range of dispensing and regulating equipment including: soap and hand towel dispensers, chemical foamers, and meter tipped dilution units, etc. to facilitate optimum results for our clients varied needs.

COMMUNITY ENGAGEMENT

At our core, ALL-PRO is a business dedicated to driving positive change within local and international communities. Through partnering with causes we care about, from non-profit organisations in the Philippines and Sierra Leone to P&C Associations, junior sporting organisations and local fundraising initiatives, ALL-PRO is committed to supporting people and giving back.

ENVIRONMENTAL RESPONSIBILITY

ALL-PRO is fully committed to providing its customers with products and services in an environmentally sustainable manner, through:

- Communicating our policy and position to employees, subcontractors and interested parties, including the general public;
- Establishing measurable objectives and targets to eliminate environmentally related incidents and minimise our environmental impact;
- Preventing pollution;
- Complying with all relevant legislation and regulations.

To achieve these goals, ALL-PRO will provide the necessary resources and training to continually improve our environmental performance in accordance with ISO 14001.

GEL HAND CLEANERS

.....

Hand cleaners come in a variety of styles including solvent and non-solvent cleaners, grit and non-grit infused products, and gel, cream and paste forms.

ALL-PRO products use the finest grade, eco-friendly surfactants, cosmetic emollients and non-plastic abrasives. Our range is designed to meet specific demands within the mining, transport, mechanical and paint industries.

CERT

- Contains non-plastic micro fine particles
- Powerful cleaning action
- Fortified with lanolin

CERT is a general hand cleaner that safely removes the most stubborn soils such as oil, grease, fresh paint, bitumen, vegetable and animal fats and many other foreign soilants. CERT provides a pumpable product in summer and winter, that resists emulsion breakdown.

HEAVY DUTY CLEANERS

.....

The diversity of surface types requiring the removal of various contaminants such as soil, grease and grime, is a broad demand that requires an even broader range of products to ensure optimum results. Our product range includes acid and caustic based cleaners as well as high range and mid-range alkali cleaners. The complex surfactant systems formulated around these caustics and alkalis, add to the traits of foam strength, quick break ability, emulsification and suitability within food preparation and food processing areas.

CAUSTIC-BASED AGENTS

GRENADE

- Biodegradable
- Foam controlled formula
- Free-rinsing formula, leaves zero residue

GRENADE is a heavy-duty, powder detergent with built-in surface-active agents. GRENADE easily penetrates the cellular structure of grease, oil, grime, dirt, fatty residues, and protein foodstuffs, etc. to allow for easy rinsing. Use GRENADE with confidence on driveways, garage floors, engineering shops and food processing areas.

SIZE	PART NO.	CARTON QTY

MULTI PURPOSE CLEANERS

.....

Our multi-purpose compounds are safe to use on any surface where water is safe to apply. Products within this range vary in viscosity, odour or lack thereof (allowing for safe use in food preparation and food processing areas), colour, foaming strength and presence of water soluble solvents. The versatility of this range is able to meet full market demands of eco-friendly, cost effective, high performance results.

CL7

- Easy to use...simply spray & wipe
- Non-fragranced
- Built-in, water soluble solvents
- Neutral pH

CL7 has been the benchmark product at ALL PRO for over 20 years.

As a pH neutral, non-perfumed general cleaner, CL7 is safe for use in all food preparation and food processing areas.

TYRES & RIMS

Rim treatment compounds provide tyre and rim sealing and retain corrosion inhibitor qualities. Our Tyres & Rims range also cover tyre lubricants and creams for mounting and demounting of tyres. Mag wheel cleaners as well as silicone and non-silicone tyre rejuvenators provide detailing agents useful in general and spray painting locations

DA TYRE COMPOUND

- Good viscosity allows easy application to large areas
- Excellent mounting & demounting properties

DA TYRE COMPOUND is a viscous Dual Action mounting product that has all the properties of a paste and a cream in one.

DA TYRE COMPOUND is chemically neutral to rubber, steel and aluminium.

SIZE	PART NO.	CARTON QTY
10Kg	DATYRE COMPOUND 10	NA

MAG MAGIC

- Easy to apply & fast acting
- Biodegradable
- Contains NO hydrofluoric acid

MAG MAGIC is a mag wheel cleaner that is safe to use on all mag wheels and metal surfaces. MAG MAGIC is highly active on foreign soilants such as dirt, oil, road grime, brake dust, etc.

SIZE	PART NO.	CARTON QTY

205Ltr	RIMGUARD CON205	1
1000Ltr	RIMGUARD CON1000	1

RIM TREATMENT PLUS

- Aids in temperature control & leak detection in tyres
- Compatible with sensors & patches

RIM TREATMENT PLUS is a formula specifically designed to work in nitrogen inflated tyre environments. This allows for excellent anti-corrosive activity on tyre rims and brass fittings and also aids in tyre sealing, temperature control and leak detection in tyres. Ideal product for high level nitrogen environments.

SYNTHETIC TYRE LUBE

- Excellent lubrication ability
- Easy & safe to apply

SYNTHETIC TYRE LUBE is a synthetic styled lubricant providing good lubricity for tyre mounting. Only a small amount of SYNTHETIC TYRE LUBE is needed to provide excellent lubrication. SYNTHETIC TYRE LUBE is particularly useful in mounting automotive and small truck tyres where a high level thick paste compound is not essential for vertical cling on the bead. It is worker friendly and neutral in odour.

SIZE	PART NO.	CARTON QTY
10Kg	STL10	NA

TYRE CREAM

- Mounting cream designed for large EM tyres
- Stable, cream style, with good viscosity, allows easy application to large areas
- Excellent mounting & demounting properties

TYRE CREAM is a “new age” compound that allows good lubricity for tyre mounting. TYRE CREAM dries when tyres heat up, by converting the cream into a powder and enabling it to disperse. TYRE CREAM is suitable and preferable in high torque applications or where tyre indexing (i.e. tyre spinning on wheel/rim) is an issue.

KITCHEN CHEMICALS

.....

Our comprehensive kitchen chemicals cover every cleaning and sanitising requirement within commercial and residential kitchens, including compounds for both manual and automatic requirements. Sink detergents at various strength levels and scents, dishwashing machine liquids and powders, rinse aids, oven and grill cleaners, floor degreasers, scale removers and combi oven compound chemicals cover all kitchen requirements.

All of our kitchen products are manufactured to provide optimum performance and economy in use. This diverse range allows customers to select the best compounds specific to their demands, whether that be in liquid or powder form, high or mid active solids or even caustic or non-caustic based.

MANUAL SINK WASH

LITTLE AUSSIE

- Provides a spot-free, streak-free finish
- Thick, mobile liquid
- Biodegradable

LITTLE AUSSIE is a highly-concentrated, hand dishwashing compound with superior grease cutting abilities. LITTLE AUSSIE produces early and sustained active foam to provide a spot and streak free finish. LITTLE AUSSIE holds its own against any super concentrated detergents on the market place, at half the price!

LAUNDRY PRODUCTS

.....

Our broad range of laundry powders and liquids have been designed to clean cloth fibres specific to the hotel industry and heavy industrial and mining operations. Manual and automatic dosing chemicals are readily available within our laundry range.

Our comprehensive auto dosing range also provides caustic breaks, emulsifiers, pH adjusting sour, fabric softeners and first stage fibre treatments. We also cater for specific needs through our pre-wash sprays and oxygenated and hypochlorite bleaching agents. Our Laundry range incorporates modern technologies to ensure aggressive soil removal while remaining passive to delicate fibres.

**MANUAL APPLICATION:
LIQUID**
BLUE LAZER

- High quality fragrance
- Suitable for all natural & synthetic fibres

BLUE LAZER is an economical, liquid laundry detergent developed for top and front load machines. With highly emulsifying properties, BLUE LAZER is a powerful, yet gentle detergent, suited to industry type washing.

MARINE PRODUCTS

.....

Marine surfaces require specialised and surface friendly compounds to clean, renew and rejuvenate surfaces experiencing the harsh climate and impact of sea water and a solar environment. All marine surfaces are covered within this range from general exterior washing to more specific hull, bilge and deck cleaners. Rejuvenation of tired and worn fibreglass surfaces are also catered for through our fine cut and supercut compounds.

BILGE & ENGINE DEGREASER

- Fully biodegradable
- Non-toxic
- Easy to apply

BILGE & ENGINE DEGREASER is a concentrated, heavy-duty blend of alkalis, surfactants and water-soluble solvents that meticulously cleans bilges and engines within the marine industry. BILGE & ENGINE is sold as a super concentrate to allow greater economy of use when diluted with water.

HARD FLOOR MAINTENANCE

.....

Hard floors including parquetry, timber and linoleum surfaces are maintained, looking “as new” through our wide-ranging floor care system. Our Hard Floor maintenance range includes floor wax, polish strippers, acrylic emulsion floor finishers and sealers. These products provide a slip retardant and scuff mark resistant coating, that is unharmed by detergent washing. Urethane and sealed timber floors can also be cleaned and refreshed using our “WOOD WONDER”. Cleaned surfaces are conditioned by dual active agents to allow sealed wood surfaces to look their best.

GALAXY

- Long-lasting, clear, hard finish
- Slip resistant
- Won't powder, yellow, crack or craze
- Scuff resistant & self-leveling

GALAXY provides an ultra-high speed floor finish with outstanding qualities, including slip and scuff resistant and self-leveling.

SIZE	PART NO.	CARTON QTY
5Ltr	GALAXY5	4
15Ltr	GALAXY15	1
20Ltr	GALAXY20	1

GALAXY BUFFING SOLUTION

- Maintains high gloss finish
- Reinforces worn areas

GALAXY BUFFING SOLUTION is an auto burnish compound designed to promote optimum performance from a top coat system. GALAXY BUFFING SOLUTION is highly effective when used over ALL-PRO's GALAXY and SUPERGLOSS floor polishes.

SIZE	PART NO.	CARTON QTY

RIP IT

- Removes several coats of polish & other finishes in one simple application
- Biodegradable
- Safety plus product; non-toxic & non-corrosive

RIP IT is a "new age", concentrated wax, polish and emulsion finish stripper containing non-corrosive and non-toxic ingredients. With a unique pH of 10.5, RIP IT is the ultimate floor wax and polisher remover.

SIZE	PART NO.	CARTON QTY
5Ltr	RIPIT5	4
15Ltr	RIPIT15	1
20Ltr	RIPIT20	1

SUPERGLOSS

- Extremely high solids content
- Provides maximum life under even the heaviest commercial traffic
- Easy to maintain

SUPERGLOSS is an acrylic emulsion floor finish and sealer, that is both slip retardant and scuff mark resistant. With a milky white appearance, SUPERGLOSS dries to a beautiful crystal-clear finish that is unharmed by detergent washing.

SIZE	PART NO.	CARTON QTY
5Ltr	SUPERGLOSS 5	4
15Ltr	SUPERGLOSS 15	1
20Ltr	SUPERGLOSS 20	1

TIMBERGLOW

- Can be applied over new flooring or surfaces stripped & thoroughly cleaned of old wax polishes
- High-gloss, hard wearing finish

TIMBERGLOW is the ultimate timber sealer for use on all timber floor surfaces including cork and parquetry. TIMBER GLOW provides treated surfaces with a hard, durable, high-gloss finish.

SIZE	PART NO.	CARTON QTY
5Ltr	TIMBERGLOW 5	4

WOOD WONDER

- Simple to apply
- Clean & shine in one simple process

WOOD WONDER is a superior polished wood floor cleaner that quickly and effectively removes everyday grime. Cleaned surfaces are also conditioned by dual active agents that leave sealed wood surfaces looking shiny and refreshed.

BAR & CELLAR CHEMICALS

.....

Brewery approved beer line cleaners as well as beer, spirit and wine glass cleaners used in automatic washing machines, soak tub or manual brush wash methods make up our complete Bar & Cellar range. We also provide a food grade glycol for cooling system needs. All products within this range comply with brewery specifications to ensure that cleaning and hygiene standards are met.

GLASSWARE RANGE

CRYSTAL CLEAR

- Contains a preparation of Benzalkonium Chloride as a sanitizing agent
- Controls bacteria & odours that affect the quality of drinking liquids

CRYSTAL CLEAR is a Brewery Approved manual glass washing compound. As a highly concentrated liquid detergent, CRYSTAL CLEAR effectively removes all traces of fatty residues, dirt, fingermarks, beer, cordial and liqueur stains, lipstick and other soilants to leave glassware with a squeaky clean, crystal clear, spot-free finish.

SIZE	PART NO.	CARTON QTY
5Ltr	CRYSTAL CLEAR5	4
20Ltr	CRYSTAL CLEAR20	1

GLASSWARE RANGE

SOAK

- Instantly dissolves in hot water to form an aqueous cleaning solution
- Works in hard & soft water regions
- Cleans & sanitises in one action

SOAK is a Brewery Approved, powdered glass soaking compound. SOAK was specifically formulated for soaking of beer, spirit and cordial glasses in hot water tubs, prior to machine washing.

SIZE	PART NO.	CARTON QTY
5Kg	SOAK5	1
10Kg	SOAK10	1
20Kg	SOAK20	1

GLASSWARE RANGE

SPARKLE

- Foam controlled for high pressure glass washers
- Activates under high temperatures

SPARKLE is a Brewery Approved liquid compound, for beer glass machine washing. SPARKLE is a free-flowing liquid that removes all soils ranging from beer, cordial, liqueurs, lipstick, and finger-marks etc.

SIZE	PART NO.	CARTON QTY

FURNITURE & METAL POLISH,

.....

CREME & GLASS CLEANERS

Through utilising the most advanced technologies available, ALL-PRO has produced a diverse range of glass cleaners, including general ready to use dilutions, concentrates, thickish mobile and paste styles. Crème cleansers, universal metal polishes, leather and furniture cleaners and rejuvenators as well as stainless steel cleaners and polishes continue the evolution of this range in meeting and exceeding customer expectations.

GLASS CLEANERS

SEE THRU CONCENTRATE

- Economical
- Crystal clear results
- Fast acting

SEE THRU CONCENTRATE is a concentrated glass and window cleaning compound. For general use, SEE THRU CONCENTRATE should be diluted at a rate of 1:10.

This dilution will provide a glass and window cleaning solution that leaves surfaces streak and spot-free.

SIZE	PART NO.	CARTON QTY
1Ltr	STC1	12
5Ltr	STC5	4
15Ltr	STC15	1
20Ltr	STC20	1

GLASS CLEANERS

SEE THRU RTU

- Leaves a bright, squeaky clean surface
- Crystal clear results
- Fast acting

SEE THRU RTU is a "Ready to Use" glass and window cleaning compound for general use. SEE THRU RTU provides a streak free finish on all windows, mirrors, Perspex, etc.

SIZE	PART NO.	CARTON QTY
500mL	STRU500	24

20Ltr	VIEW20	1
25Ltr	VIEW25	1

METAL POLISHERS

SHINE

- Non-abrasive, non-corrosive & non-caustic
- Gentle for hand application

SHINE is an easy to apply universal metal polishing compound, that is non-abrassive, non-corrosive and non-caustic. SHINE is a specially formulated cleaning and polishing liquid for brassware, copperware, silverware, pewter ware, zinc, aluminium profile, gold, white gold and other shining metals.

SIZE	PART NO.	CARTON QTY
500mL	SHINE500	24
5Ltr	SHINE5	4

METAL POLISHERS

SSC

- SSC is suitable for most surfaces such as metal, porcelain, tiles, etc.
- Use confidently on BBQ's, elevators, bath tubs, white goods, alloy mag wheels, & stainless kitchen fixtures, etc.
- Requires little exertion for a rejuvenated look

SSC is a specialised stainless-steel cleaner and rust remover for stainless steel, chrome and alloys. SSC works quickly, leaving surfaces clean and rejuvenated with that "as new" finish.

SIZE	PART NO.	CARTON QTY
750mL	SSC750	12
5Ltr	SSC5	4

METAL POLISHERS

SSP

- SSP provides a showroom finish on brushed & mirror finish stainless-steel
- Economical product...only a small amount goes a long way

SSP is a mineral, oil-based stainless-steel cleaner and polish. SSP is easy to apply and leaves cleaned surfaces "glistening" with a "brand new" appearance

SIZE	PART NO.	CARTON QTY
750mL	SSP750	12
1Ltr	SSP1	12

FURNITURE CLEANERS

GLISTEN

- Protects & preserves anodized aluminium surfaces exposed to climatic conditions
- Worn & tired surfaces are easily & quickly restored with a simple spray on / wipe off application
- No hard scrubbing is necessary

GLISTEN is a universal, silicone-based polish / cleaner for use on vinyl, stainless-steel, chrome, plastic, highly finished furniture, refrigerators, formica (and similar paneling), ceramic and enameled surfaces.

SIZE	PART NO.	CARTON QTY
750mL	GLISTEN750	12
5Ltr	GLISTEN5	4

FURNITURE CLEANERS

LEATHER LIFE

- Removes dirt, grime, body oils & most everyday soilants & spillages
- Moisturises & softens leather surfaces
- Imparts an invisible film to protect against general wear & fading from UV rays

LEATHER LIFE is a new age formula designed to clean, condition and protect finished leather surfaces on lounges, chairs, shoes, handbags, car seats, as well as vinyl, rubber and most plastic surfaces.

SIZE	PART NO.	CARTON QTY
750mL	LEATHERLIFE 750	12
5Ltr	LEATHERLIFE5	4

GENERAL CLEANERS

CLEANSE

- Easy to use
- Biodegradable
- Highly effective

CLEANSE is a powerful non-ammoniated, non-scratch surface cleanser, combining deep cleansing action with high emulsifying properties. It is kind to hands and contains a mild gentle abrasive which is specifically designed to clean recommended surfaces without the harsh scratching of powder scourers.

SIZE	PART NO.	CARTON QTY
500mL	CLEANSE500	24
1Ltr	CLEANSE1	12
5Ltr	CLEANSE5	4

GENERAL CLEANERS

CRÈME CLEAN

- User-friendly
- Even the smallest amount provides outstanding results

CRÈME CLEAN is pleasantly scented mild crème cleaner with high-grade organic cleaning agents. CRÈME CLEAN can be applied to multiple surfaces, including: stainless steel, porcelain, ceramic marble, vitreous enamel, chrome, painted surfaces, and enamel finishes, etc.

SIZE	PART NO.	CARTON QTY
500mL	CREMECLEAN 500	24
5Ltr	CREMECLEAN 5	4

GENERAL CLEANERS

GLAZE

- Crystal clear finish
- Free-flowing paste
- Easily removes bugs & road grime

GLAZE is a heavy-duty glass cleaner and polish that quickly and easily cuts through the toughest of grime. Easy to apply, GLAZE removes all traces of label residue, crayon, greasy finger marks, nicotine and similar soilants to a streak-free, crystal clear finish.

SIZE	PART NO.	CARTON QTY
1Ltr	GLAZE1	12
5Ltr	GLAZE5	4
20Ltr	GLAZE20	1

GENERAL CLEANERS

SCOUR SOFT

- Non-scratch surface cleanser
- Kind to hands

SCOUR SOFT is a powerful non-scratch surface cleanser combining deep cleansing action with high emulsifying properties. SCOUR SOFT contains a mild gentle abrasive which is specially designed to clean recommended surfaces.

CARPET CARE

ALL-PRO manufactures a truly universal carpet cleaning solution for manual or extraction machine use. A combination of water miscible solvents, low foam surfactants and mild alkaline builders, effectively and safely penetrates soilants in all natural and synthetic fibres. Our range also includes stain removers for browning stains (often caused by vegetable and alkali dyes, alkali burning or over wetting), a coffee, red wine and drink stain remover and a solvent-based carpet stain cleaner that quickly removes a broad range of stains.

LIFT

- Tough on stains/gentle on carpet fibres
- Built-in, surface-active agents

LIFT is a solvent-based, cleaner that quickly removes various stains from upholstery and carpet.

LIFT actively removes stains caused by mineral oils, grease, floor wax, nail polish, inks, tallow, cooking oil, butter/margarine, marker pens, texta, cosmetics, tar, shoe polish, paint, other vegetable and animal fats, resinous materials and some glues and adhesives.

.....

SOLVENT DEGREASERS,

.....

**DECARBONISERS, PAINT STRIPPERS, ELECTRICAL
CLEANERS & NUT & BOLT RELEASE AGENTS**

From the handyman and workshop to major mining operations, ALL-PRO has an extensive range of degreasing, decarbonising and electrical cleaning compounds. Decarbonisers are available in hot tank styles such as HEAT and cold tank versions including ZZ DECARBONISER and DECARB. Electrical cleaners are also catered for in flammable and non-flammable versions. Degreasers in petro hydrocarbon and non-petro hydrocarbon styles meet the demands of heavy grease and oil removal. Our diverse range is designed to satisfy site demands relative to cleaning degree, environmental impact and safety in use. Paint strippers, nut and bolt release sprays and dewatering liquids, etc. are also part of this comprehensive range.

DECARBONISERS

DECARB

- Can be diluted with water for less aggressive carbon removal tasks
- User-friendly

DECARB is a powerful, non-toxic decarbonising solution built on natural renewable ingredients. It safely replaces harsh toxic and carcinogenic solvents.

SIZE	PART NO.	CARTON QTY
5Ltr	DECARB5	4
20Ltr	DECARB20	1

DECARBONISERS

HEAT

- Highly concentrated & economical in use
- Free-flowing powder
- Fortified with pine oil

HEAT is a hot tank degreasing powder containing sodium hydroxide. HEAT is added to hot tank degreasers for the thorough removal of oil, grease, grime, rust, most paints and other residues. Due to the wide range of metals on the marketplace, we suggest that you enquire to metal distributors as to the suitability of such metals for cleaning in a caustic hot tank degreaser. Once the metal is clear, a thin coating of "RESIST" will protect it from future corrosion whilst offering weather protection.

SIZE	PART NO.	CARTON QTY
10Kg	HEAT10	1
20Kg	HEAT20	1

DECARBONISERS

ZZ DECARBONISER

- Fast acting
- No heat required

ZZ DECARBONISER is a liquid cold, dip paint stripper and decarboniser. ZZ DECARBONIZER is a powerful blend of solvents and penetrating agents formulated to provide the fast removal of grease, carbon, fuel residues, paint and gums from all metal surfaces in a cold dip application.

SIZE	PART NO.	CARTON QTY
4Ltr	ZZDECARB ONISER4	4
20Ltr	ZZDECARB ONISER20	1

DEGREASERS

DESOLVE

- Will not harm paint or rubbers on machinery or trucks
- Contains a special corrosion inhibitor for metal parts, which leaves no film or odour on cleaned surfaces

DESOLVE is a heavy-duty solvent degreaser that combines solvents and wetting agents together to create a product that quickly and effectively removes all types of oil, carbon, grease, black jack, road film and heavy industrial grime.

SIZE	PART NO.	CARTON QTY

1000Ltr	DFSOLVENT 1000	1

DEGREASERS

EZY DEGREASE

- Superior surface-active emulsification
- Can be diluted with Kerosene or Diesel

EZY DEGREASE is a flammable, solvent degreaser with a high-level surfactant system. This “new age”, non-alkaline cleaner has superior pulling power, including penetration and emulsification to quickly remove all types of oil, carbon grease, black jack, road film and heavy industrial grime.

SIZE	PART NO.	CARTON QTY
20Ltr	EZYDEGREASE 20	1
205Ltr	EZYDEGREASE 205	1
1000Ltr	EZYDEGREASE 1000	1

DEGREASERS

LFPC

- LFPC's unique formulation will ensure the removal of a wide range of soils

LFPC is a low foam, alkaline spray wash and rust inhibitor suitable for cleaning all metals.

LFPC has been designed for use in industrial pressure spraying machines for cleaning ferrous and non-ferrous metal parts.

SIZE	PART NO.	CARTON QTY
20Kg	LFPC20	1

DEGREASERS

POWER PLUS

- Contains a special corrosion inhibitor for metal parts that leaves zero film or odour on cleaned surfaces
- Auto Ignition Temperature 229 Degree Celsius
- Flashpoint 80 degrees Celsius

POWER PLUS is a heavy-duty solvent degreaser and black jack remover. This combustible, non-alkaline cleaner has a lot of pulling power, including penetration and emulsification to quickly remove all types of oil, carbon, grease, black jack, road film and heavy industrial grime. POWER PLUS will not harm paint or rubbers on machinery or trucks.

RENEW

- Concentrated for greater performance & economy
- Easy to apply

RENEW is a phosphoric acid-based metal cleaner, masonry restorer and rust eliminator. RENEW is a fast-acting cleaner which penetrates and removes all traces of white oxides, grease films, scum and grime from stainless steel, marble, granite, terrazzo, all masonry surfaces and aluminum surfaces.

SIZE	PART NO.	CARTON QTY
5Ltr	RENEW5	4
15Ltr	RENEW15	1
20Ltr	RENEW20	1

RESIST

- RESIST is a non-toxic treatment that prevents corrosion & prolongs the life of tools, machinery & parts
- Apply a light single coating for transport protection
- For long term storage, apply 3 to 4 liberal coats

RESIST is a free-flowing liquid and anti-corrosion treatment.

It is easily applied by sprayer, brush or dip method to impart a thin

coating that resists weather, moisture, pollutants and other corrosive elements. RESIST cures under normal conditions in just 15 to 25 minutes.

SCALE OFF

- Can be safely applied to metal, masonry, marble, concrete, glass & similar surfaces
- Highly effective in removing surface rust
- Safe for use in food preparation & food processing areas

SCALE OFF is a highly effective, hard water stain remover and descaling agent.

SCALE OFF is a unique blend of acids, wetting agents, chelates and biodegradable surface-active agents. It easily and effectively removes traces of magnesium and calcium build-up on surfaces affected by hard water overspray.

SIZE	PART NO.	CARTON QTY

THE CONVERTER

- Perfect for rust removal on cars, boats & caravans
- Also use on rusted galvanised roofs or surfaces, etching new galvanising, white goods, structural steel, & hand tools, etc.

THE CONVERTER is a highly concentrated, phosphoric acid-based rust converter.

THE CONVERTER is used as a pre-painting treatment for converting surface rust (iron oxide) into iron phosphate, which forms an ideal base for further protective coatings.

.....

DUST CONTROL AGENTS

.....

ALL-PRO has developed an array of agents specific to dust emission problems. From mining and construction haul roads to mineral/coal and earth stockpiles and wagon transport of ores, our dust control agents effectively treat most dust surfaces. Dust particles contribute to health, safety and environmental issues if not controlled and contained.

NEW AGE polymer and surfactant technologies combine to provide a range that meets all these surface coating needs through suppressing particles from becoming airborne.

BINDER

- **BINDER will NOT stain, discolour or damage machinery or vehicles that may come into contact with overspray**
- **User-friendly & eco-friendly**
- **Non-toxic to humans & marine life**

BINDER is a unique blend of wetting agents and binders that provide an all-purpose agent that effectively treats most dust surfaces. BINDER is a liquid compound that evaporates, leaving a flexible film that binds particles together, and thus preventing them from becoming airborne. Wind shear lifts particles smaller than 0.42 mm to create a dust cloud; BINDER effectively controls this issue. BINDER is an eco-friendly/ user friendly compound that will not produce hazardous by-products from ongoing processes involving coal and mineral ore.

205Ltr	BINDER205	1
1000Ltr	BINDER1000	1

DSA

- **Versatile & aggressive on controlling potential airborne particles**
- **The agglomeration & binding action of DSA, increases particle mass & size, estriicting its ability to become airborne**

DSA is a readily soluble, universal dust suppressant agent. DSA combines a unique blend of wetting agents, humectants, polymers and binders to provide an all-purpose agent that effectively treats most dust surfaces. Several key benefits from using DSA include: surface moisture retention, hygroscopic activity, deep penetration and surface agglomeration.

205Ltr	DSA205	1
1000Ltr	DSA1000	1

DUST DOWN

- **Special additives in DUST DOWN retain dust particles through a unique, environmentally friendly method making dust “tacky”**
- **Reduces labour & machine costs**
- **Biodegradable product (non-toxic to humans & plants)**

DUST DOWN is a natural blend of polymers and surface-active agents that reduces dust and water usage on underground and surface areas of “Hard Rock” mining operations. When diluted, DUST DOWN removes between 50% to 90% more respirable dust than water alone. DUST DOWN’s unique formula allows water to penetrate quicker into roadways, meaning less run-off and evaporation. Through built-in humectants, water is retained within soil for longer periods of time, whilst built-in polymers create a microscopic film to aid in moisture entrapment.

SIZE	PART NO.	CARTON QTY
20Ltr	DUSTDOWN20	1
1000Ltr	DUSTDOWN 1000	1

DUST SEAL

- Reduces water requirements & frequency of application
- Environmentally friendly
- Non-corrosive to equipment

DUST SEAL is a dust control additive for stockpile and surface areas of mining operations as well as civil earth work projects. DUST SEAL provides excellent soil agglomeration and surface flexibility.

SIZE	PART NO.	CARTON QTY
20Ltr	DUSTSEAL20	1
205Ltr	DUSTSEAL205	1
1000Ltr	DUSTSEAL 1000	1

DVA

- An eco-friendly/user-friendly compound that will NOT produce hazardous by-products from on going processes involving coal & mineral ore
- ALL-PRO has a diverse range of dispensing & regulating equipment to minimize manual handling & regulate volume usage

DVA is a train wagon veneer and bulk dust control agent. DVA contains a unique blend of wetting agents and binders to provide an all-purpose agent that effectively treats most dust surfaces. As a liquid compound, DVA evaporates leaving a flexible film that binds particles, which prevents them from becoming airborne. Wind shear lifts particles smaller than 0.42 mm to create a dust cloud; DVA effectively controls this issue.

1000Ltr	DVA1000	1

THE SUPPRESSOR

- Prevents dust particles from being loosened or liberated which vastly reduces dust from becoming airborne or drifting
- Will not re-emulsify once dried & prevents rain or water application from penetrating the thick flexible film
- Easy to apply, biodegradable, & safe for storage

THE SUPPRESSOR is an aqueous dust binder and encrusting agent. THE SUPPRESSOR is an acrylic polymer that, when diluted with water, provides a thick durable crust. As an encrusting agent, THE SUPPRESSOR penetrates and binds coal, garbage dumps, tailing dumps, soil and other dust particles either on stockpiles, rail cars, or in mine walls and floors.

SPECIALISED PRODUCTS

.....

To enhance client needs we support our range with some specialized chemicals and compounds that allow us to be a “one stop” shop. Drain cleaners, urinal crystals and encased tablets, enzyme-based products as well as specialized cleaning agents in this expanding range, are sure to complete any site requirements.

123

CAUSTIC DRAIN CLEANER

- Clears blocked drains fast
- Heavy-duty cleaning
- Removes grease & grime

CAUSTIC DRAIN CLEANER is a powerful agent that dissolves & melts away tough clogs. It is designed for use in slow running drains to dislodge organic matter whilst remaining passive to pipework.

It is also an effective heavy duty cleaning agent, removing grease and grime with ease!

SIZE	PART NO.	CARTON QTY
500g	CAUSTIC DRAIN500	12

CHLOR XXX

- Safe for use in food preparation & food processing areas
- Low foam system
- Fast acting

CHLOR XXX is a free-flowing, chlorine powder compound that easily and effectively cleans, bleaches and sterilises a variety of surfaces including glass, plastic, stainless steel, enamel, porcelain, ceramic, etc.

SIZE	PART NO.	CARTON QTY
5Kg	CHLORXXX5	1
10Kg	CHLORXXX10	1
20Kg	CHLORXXX20	1

COIL CLEAN

- Free flowing liquid
- Odour-free
- Neutralised formula

COIL CLEAN is a concentrated coil cleaner that quickly and effectively cleans air conditioner and heat exchanger coils, while coating paths for further protection. COIL CLEAN is a biodegradable, user-friendly product that dilutes with water for greater economy.

SIZE	PART NO.	CARTON QTY
5Ltr	COILCLEAN5	4
20Ltr	COILCLEAN20	1

DRAINFLOW

- **Fast-acting**
- **Highly concentrated**

DRAINFLOW is a powerful sulphuric acid-based drain cleaning agent. DRAINFLOW clears drains of a variety of organic matter within seconds. Extreme safety is required when applying this product.

SIZE	PART NO.	CARTON QTY
1Ltr	DRAINFLOW1	12
5Ltr	DRAINFLOW5	4

FRUIT CLEANER & SANITISER

- **Chlorine based**
- **Biodegradable**
- **Easy to use**

FRUIT CLEANER & SANITISER is a liquid sanitising solution for fruit and vegetables.

SIZE	PART NO.	CARTON QTY
5Ltr	FCS5	4
20Ltr	FCS20	1

OFF

- **Heavy-duty remover**
- **All weather efficiency**
- **Easy to use**

OFF is a liquid cleaner for marks of vandalism on non-porous surfaces. It easily and effectively removes ink, texta, paint, crayon and other marks from tiles, laminex and other non-porous surfaces.

SIZE	PART NO.	CARTON QTY
1Ltr	OFF1	12

TOILET BLOCKS

- Strong odour control
- Long-lasting blocks
- Will NOT clog drains

TOILET BLOCKS is a para-dichlorobenzene based toilet crystals for urinals. TOILET BLOCKS provides odour control and sterilisation.

SIZE	PART NO.	CARTON QTY
4Kg	TOILETBLOCKS 4	1
15Kg	TOILETBLOCKS 15	1

UNITABS

- Plastic encased deodorant block
- Will NOT block drainage systems
- Long-lasting fragrant blocks

UNITABS are a high-quality, long lasting deodorant block for urinal systems. UNITABS provide a long-lasting fragrance that will not block or inhibit drainage systems.

SIZE	PART NO.	CARTON QTY
BLOCKS	UNITABS	1

ZYMAGIC

- Pleasantly scented
- Eco-friendly
- Easy to use

ZYMAGIC is an enzyme-based cleaning solution for organic waste systems. ZYMAGIC has been formulated for use in drains, septic systems and pipework to clean systems and support the biological breakdown of waste compounds.

SIZE	PART NO.	CARTON QTY
5Ltr	ZYMAGIC5	4
15Ltr	ZYMAGIC15	1
20Ltr	ZYMAGIC20	1

.....

WATER TREATMENT

.....

& ACID/CAUSTIC BUILDERS

ALL-PRO also provides a comprehensive range of general and specialised chemicals used in water treatment and general chemical operations. Water treatment removes contaminants and undesirable components, or reduces their concentration so that the water becomes fit for its desired end-use. Our range includes alkali and acid pH adjusters, flocculants and disinfectants.
